

One Touch  
Jeff Landgraf

Come sit by me  
Show me your smile  
Help me find mine

I need one word  
Give me one word to start  
And girl I swear the conversation will never stop

I want one laugh  
Call me a fool once just to make a start  
And girl I swear we'll laugh till the meteors light the night

I want one touch  
Give me one touch just to start the feeling  
And girl I swear we'll find our way through the dark till the sun returns

I want one kiss  
Give me your kiss  
And girl, I swear I'll feel you lips on mine when the days all end  
and the long night cradles us together in its arms.
